🛠 SoulScript – Webmaster Instructions & Blueprint

⬜ 1. Project Vision

SoulScript is a soulful, emotionally intelligent journaling platform with layers of privacy, emotional interaction, and reflection. It combines private journaling, anonymous expression, and a gentle, non-toxic public space. It must feel human, warm, and sacred

📑 2. Platform Structure

a. Web First

- Fully responsive design (desktop-first, mobile-ready).

- Optimized for offline functionality (PWA if possible).

- Built with scalability toward app deployment (React, Vue, or any flexible SPA architecture).

b. App (Coming Soon)

- Codebase should be prepared to plug into app build (API-first approach).

✒ 3. Core Features

a. Journaling Modes

- Private Mode: Only visible to user.

- Public Anonymous Mode: Entry posted anonymously to the "Quiet" community.

- Semi-Private (Passive Browsers): Users can view, Echo, or Whisper—but can't post.

b. Entry Options

- Multimedia: text, voice, image, video, drawings.

- "Dear [name]" journaling (user can customize recipient). - Emotion tagging with hashtags (e.g., #grief, #hope).

c. Legacy Mode

- A dedicated journaling flow "to someone" (e.g., a lost loved one, unborn child).

- Eventually feeds into Autobiography Mode: AI-curated life story generation.

💬 4. Community Interactions

a. Echo

- Replaces "like"

- Visual: wave, ripple icon

- Anonymous count only (e.g., "23 felt this too")

b. Whisper

- Replaces "comment"

- Anonymous, one-word or short sentence replies.

- No usernames or public profiles.

c. Stream ("The Quiet")

- Public anonymous entries

- Sorted by time, emotion, or hashtag

- Users can Drift (browse), Echo, or Whisper

5. Navigation Lexicon (UI Mapping)

Standard Term	SoulScript Language

Home		Sanctuary	
New Post		Begin / Unfold	
Submit		Release / Let Go	
Like		Echo	
Comment		Whisper	
Feed		The Quiet / Stream	
Profile		Portrait / Selfscape	
Settings		Boundaries / Inner Compass	
Groups		Constellations	
Prompt		Today's Invitation	

Use these consistently across the platform.

🔐 6. Privacy & Safety

- Disable copy/paste + screenshot protection (if possible).

- No public profiles or DMs.

- Option for users to disable interactions per entry.

- Whisper moderation with filters and community flagging.

📊 7. AI-Powered Features (Phase Two)

- Emotional insights dashboard ("Reflections")

- Mood tracking ("Inner Weather")

- Word frequency analysis

- Autobiography generation

- Prompt generation based on emotion history

🎨 8. Design Language

- Clean, minimal, whitespace-friendly.

- Soft tones: deep blues, earth, muted purples.

- No clutter, no performance metrics (likes, shares).

- Button and text labels follow emotional language.

🗁 9. Technical Notes

- REST or GraphQL API

- Authentication system with optional email/phone signup (no usernames)

- End-to-end encryption for private entries

- Cloud storage for media uploads

- Option to export entries ("Carry With Me")

⬚ 10. Community Space

- Public entries organized via emotion hashtags.

- AI sorts themes into groups ("Constellations").

- Users can't DM — only passive emotional interaction (Echo/Whisper).
